OBJECTIVE

Seeking a position in the area of Interactive Media, which will allow me to use my technical expertise, artistic abilities for designing and building usable, accessible interfaces and websites on all devices. I make the complex simple, design, strategize, plan, shape behavior, architect and solve problems.

SUMMARY

Remarkable experience in Responsive Web Design, HTML 5, CSS 3, SEO, Search Engine Marketing, WordPress and general Web site traffic metrics.

Six + years of experience and proven ability to analyze, design and implement new concepts based on client needs and expectations.

Experience in design processes and familiarity with core principles of design including information architecture, visualization, content organization and structuring, interaction design, user behavior, branding, color theory, navigation, and typography.

Expert in developing a cross platform and browser compatibility for dynamic web applications for whatever that device may be with.

Ability to provide support to various business applications with strong technical background paired with a deep understanding of human behavior.

TECHNICAL SKILLS

Regularly Used: Adobe Creative Cloud Photoshop, Illustrator, InDesign, Dreamweaver, Flash, Fireworks, Corel Draw, HTML-5, CSS-3, CMS, WordPress, ActionScript 3, MS Office Suite.

Familiar with: Adobe Creative Cloud: Edge Animate, Adobe Edge Reflow CC, Edge Inspect CC, After Effects CC, Premiere CC, Streamline, Pagemaker, Sound Forge, Final Cut Pro, Elastic Reality, JavaScript (jQuery), XML, SEO, SEM, MySQL and PHP.
